

LOVE THE SOLAR SAVINGS? TELL YOUR FRIENDS

FEEL GOOD ABOUT GENERATING THE ENERGY YOUR FAMILY USES RIGHT ON YOUR OWN HOME? IMPRESSED WITH THE QUALITY INSTALLATION AND GREAT PRICE YOU ARE BENEFITTING FROM? **SHARE THOSE FEELINGS WITH YOUR FRIENDS AND FAMILY & INCREASE YOUR SAVINGS!**

At Homegrown Energy Solutions we love what we do! We pride ourselves on quality installation and our upfront and educational sales process. Our goal is for you to love our service so much, that you share your experience with your friends and family. By helping us "get the word out", you keep our costs low and that allows us to pass savings on to you in our Refer-A-Friend program, detailed below.

What we'll do when you refer someone to us

1. Review their property online so we are prepared to speak with them.
2. Call your friend/family member and introduce Homegrown Energy Solutions as referred by you.
3. Understand their specific goals and needs as well as explain the overall process to go solar.
4. Schedule an onsite visit if it seems like a PV solar energy solution might be a fit for their home and family.

What happens next?

If your friend or family member decides to go solar with us, we'll provide you with a check for the applicable amount at the time the system is installed on their home.

Referred Homeowners Installing Solar	Referral Amount (per installation)
1-3	\$300
4 or more	\$500

Your Name			
Your Friend's Information (complete information below)

It's helpful if you let your friend or family member know that we'll be reaching out once we have their information.			

The Details: A referral payment is earned when the referred homeowner signs a contract and has a residential solar system installed by Homegrown Energy Solutions. In the event multiple persons refer the same homeowner, the first person to submit the referral is entitled to the referral payment. The Refer-A-Friend Program may be modified or discontinued without notice at the sole discretion of Homegrown Energy Solutions LLC.
